

EXPLAINS DEAL IN BROWN WILL

Editor of the Boston AMERICAN:

I desire to correct certain statements made in the Sunday edition of the Boston AMERICAN in regard to the settlement made by Mrs. Samuel N. Brown and Harold Brown.

Mrs. Brown is not called upon to return any of the gifts made to her by her husband before he died. She has voluntarily given up to Harold Brown the residence on Commonwealth Avenue so that it might remain in the Brown family. She has not given up the Ocean House property.

The will was set aside by agreement of parties. The statement that

Mrs. Brown is to receive only the income of the property, and it is probable that at her death this will revert to the son, is enormous. Upon the death of Mrs. Brown nothing will revert to Harold.

The settlement made by the parties is entirely to the profit and the benefit of it are of no public interest. This settlement was reached by each side making substantial concessions. Yours very truly,

WALTER I. BADGER,
Attorney for Mrs. Samuel N. Brown.
Nov. 11, 1912.

GIVES PARTY AT 100.

Mrs. Rosanna Urquhart, the mother of fourteen children, nine of whom are living, gave a party at her home, the home of her daughter, Mrs. Laura McQuinn, No 1017 Front street, South Weymouth.

DR. SUPPLE LECTURES.

Your Dr., David G. Supple, D. D., of the Immaculate Conception Church, Malden, will lecture before the New Council "On the Maiden tonight on 'The Catholic View of Education.'"

Rabbi Eliezer of Chabaz Sholom congregation of Boston, declares Rabbi Emil G. Hirsch of Chicago should be barred out of the synagogue for his remarks. Hirsch, because he recently attended the eating of pork.

R. Hirsch said in an address before the People's Synagogue Association in his home city: "Pork chops are my meat as much as your meat or any man's meat. No superstitions that taboos pork has any terrors for me or any other reformed Jew."

Rabbi Eliezer is indignant over this Chicago declaration and says:

No rabbi has any respect for the Hebrew faith, who would say anything like what has come from the lips of

Mrs. George Orse, skipper of the schooner Hiran, is receiving congratulations today on the remarkable feat when she brought the battered and leaking schooner to Boston harbor, after a collision with the unknown vessel off Cape Cod on Wednesday.

But for the brief intervals to swallow a cup of coffee or to snatch a few minutes of sleep, the woman skipper was at the wheel day and night, fearlessly plunging ahead with the steadfast purpose of saving the almost century-old vessel.

Mrs. Orse is the only woman skipper of the Atlantic coast. Her schooner is ninety-three years old.

The Hiran was built in 1810 and the

By J. C. KERRISON.

A new use for moving pictures has been discovered by C. S. Thompson, advertising manager of the Diamond Rubber Company. In order to demonstrate the safety of the Diamond Safety Tread tires, two high speed cars were driven on pavement for a black and around the corner into the next block.

One of the cars, which had been made slippery, an automobile with smooth tires, made the turn at a speed of thirty miles an hour. The car skidded almost completely out of control. Moving picture cameras took pictures of the car.

A second car equipped with Diamond Safety Tread tires made the same turn at the same speed without any difficulty without the least skid. The biograph recorded the feat also.

A third test was made by skimming the brakes of the car while the car was traveling thirty miles straightaway. The car with plain tread tires acted as usual, but the car with Diamond Safety Tread tires did not skid.

In St. Jerome, Quebec, it is a home town learned over two hundred people, who had been habitual drinkers, have been cured of this frightful curse. This fact came to the attention of the Rev. W. H. Scort, Postmaster of that place. Scort has been actively interested in bettering conditions there. Mr. Scort recently made a visit to the U. S. and returned home with a bottle of KENOVA, the remedy that rescued these 200 people.

KENOVA is the treatment being adopted by the Rev. Scort, everywhere, to save from drunkards' graves, that enslave men to go home with full pay envelopes; and to save the families of these wretched men from the horrors of a life-long struggle with KENOVA at Riker's Island.

James? If you have a dear one who needs KENOVA, let me tell you how you can know he is taking it, for it's guaranteed absolutely harmless. Guarantee? We do the trickier good of getting your money back.

If you'd like to try it—free—before you buy, write to me for a free literature and conference to the KENOVA Co., 100 Broadway, New York, for a sample and what you will receive there.

Write at once, to avoid disappointment.

Class in Chicken Flip, Come Forward!

Miss Sears' New Dance All the Rage

AMELIA BURNHAM AND PAUL CRUTE IN POSES OF THE NEW DANCE, CHICKEN FLIP

Grizzly-Bunny-Tango-Turkey-Trot and More in One Roost High in Favor Here.

By SIBYL WARNE.

The Chicken Flip, invented by Eleanor Sears, and demonstrated by her and Richard Vandenberg at the Coppleton to celebrate Harvard's football victory over Princeton, has displaced the famous Turkey Trot.

Not only in this city, but in New York, Philadelphia, Chicago and other places where the fashionable set had become turkey trotters, the new dance has been received with expressions of delight.

The younger set in Philadelphia, for instance, danced the Turkey Trot until they dropped. The mothers interposed. The mothers have seen the Chicken Flip. They have compromised with their daughters on that.

The Philadelphia mothers argue that if the dance is approved in Boston's "conservative Back Bay" that it is all right. Everybody's wondering today how the Chicken Flip is danced. It's a waltz.

HOW NATURE CURES CONSTIPATION

And Why Drugs Are Being Used Less and Less For That Purpose.

The custom of Internal Bathing for keeping the intestines pure, clean and free from poisonous matter—curing constipation, biliousness and the more serious diseases which they bring on—has become so universally popular and so scientifically correct in its application as to merit the most serious consideration.

On the contrary, the scientifically constructed Internal Bath gently assists Nature, but is infinitely more thorough in its cleanliness than any drug, no matter what its nature.

The "J. B. L. Cascade" which is now being used and praised by thousands and prescribed by many eminent physicians, is now being shown and explained by all Riker-Jaynes Drug Stores in New England.

The action is so simple and natural as to be immediately applied to all common ailments. This is the reason for its great and deserved popularity.

\$10,000,000 FOR 'PHONE PENSIONS

The Bell Telephone Company, which includes the New England Telephone & Telegraph Co., has announced that a pension system will go into effect January 1. A fund of \$10,000,000 has been established for the purpose. Thirty thousand employees are affected in New England. The Bell system employs 175,000 people in all.

This \$10,000,000 fund will be made good from year to year by annual appropriations on the part of the American Telephone & Telegraph Co. and its associated companies, and the Western Union Telegraph Company and the Western Electric Company.

The New England Telephone & Telegraph Co. and its allied companies will supplement their present pension plan by the substitution of this much broader provision, these already pensioned, however, not to be affected.

Plan for Distribution.

The plan for the distribution of this fund has been characterized as the most liberal, comprehensive and ideal ever inaugurated. President Vail has provided combined benefits for superannuation, sickness, accident and death, for an industrial army more than twice as large as the standing army of the United States.

Under the system, an employee of the New England Telephone & Telegraph Co. may receive more than a far western State or a man engaged in a heavy occupation and still retain the advantages of the plan. It determines that an employee might be entitled to under the system, his company would be added together, just as though he had spent his entire life in the service of the company.

The terms of the new plan are simple. Under the heads of age, illness, disability and death, the plan is administered by the employee benefit committee of five, to be appointed by the board of directors of each company.

Any male employee who retires at the age of fifty years, and who has been in the service of a Bell company for twenty years, may receive a pension. After he has reached the age of fifty-five, provided that he has been twenty-five years in service.

Pensions for Women.

In any case, the pension age of women employees is five years younger than that of men. Any employee who has been working thirty years may be pensioned, regardless of age, on approval of the president of the company.

The amount of the pension will be 1 per cent. of average annual pay for ten years, multiplied by the number of years of service. A man who has received during his last ten years of work, a salary of \$2,000 a year, and who has received an annual pension of \$400. There will be no pension of less than \$50 a month.

In the case of accidents occurring during the performance of duty, the employee who is injured will receive full pay for thirteen weeks for his disability and half pay for the remainder of the disability up to six years.

Abolish Slums, Says Dr. Cabot, to Stop the White Plague

"To lift modern society is like lifting a jellyfish. You cannot move it by one corner. You must lift it all at once. You cannot abolish tuberculosis until you abolish the slums and the poverty—the alcoholism, ignorance and over-crowding which they embody." Thus declared Dr. Richard Cabot in his address on "Habitat" at the opening meeting of the Citizens' Union of the South Congregational Church, Monday.

Wagoner works for tenement house reform and for the suppression of "white plague" in helping to suppress tuberculosis, school hygiene and the medical inspection is an aid to those who are struggling with the disease. It is a good constitution and a knowledge how to preserve it.

The trouble today is that only a few physicians are in regular attendance in its earliest stages. And not only are the physicians in the slums, but the board of registration's examination is a good constitution and a knowledge how to preserve it.

RELIEF CORPS FAIR OPENS TONIGHT

The Women's Relief Corps fair in aid of the veterans of the Civil War opens tonight in the hall of the "Herald" and will be Grand Army night; Wednesday, November 13th, will be the Women's Relief Corps night; Thursday, November 14th, will be the Veterans' night; Friday, November 15th, will be the Veterans' night; Saturday, November 16th, will be the Veterans' night; Sunday, November 17th, will be the Veterans' night.

By "Bud" Fisher

Browns to Release
a Veteran Battery

ST. LOUIS, Nov. 11.—Jack Powell and Jimmy Stephens, two of the school divisions in point of service on the team, are slated for duty elsewhere next season. That's the latest tip that has leaked out, and during the Winter arrangements will be made to turn over the equipment and the dismountable battery to some other club.

HARVARD ELEVEN STRONG
CRIMSON PREPARES FOR BATTLE WITH GREEN SATURDAY
FELTON IS THE STAR KICKER

WITH a clean slate behind them, the work of this week faces the Harvard squad with a new set of difficulties. The team, which has taken care of Princeton and Brown, must now handle Dartmouth in like fashion, unless the Connecticut Champions are to go by the board, and the team is to be demoralized before the great clash with Yale.

YALE TEAM IN POOR SHAPE
ON EVE OF THE BIG GAMES

NEW HAVEN, Nov. 11.—The Yale football season is anything but bright on the eve of the big battles with Princeton and Harvard. True, the Yale defense had Saturday by the score of 10 to 0 but the eleven will have to show better form than it did against the team from Providence if it is to win from either Princeton or Harvard.

disappointing during the past few years. They say that there are too many hands, and no one who dominates the entire team. All Fall the team has been taken to surprise by the forward pass. Every team that has played has worked this play for more or less success and Saturday's game capped the climax by gaining 100 yards by the use of this play. Yale has asked to the line-plugging game on the theory that the team can win by rushing the ball.

Billy Papke to Meet
Another French Boxer

PARIS, Nov. 11.—Frank Kline of Pittsburgh has declined to fight Billy Papke and instead Papke has accepted to offer to fight twenty rounds with Benoit at the Cirque de Paris on December 4. Kline returned to fight, stating that he wanted an easier game. Benoit is the former world-windweight champion, and Papke who has grown into a middleweight.

Mahmout Quits Mat
to Fight Turks

Yusuf Mahmout, Frank Dutch's protégé from Bulgaria, who is regarded as the best catch-as-catcher-in the world, excepting the American champion, has gone to fight the Turks. He has taken the field with the Bulgarian army in the war of the Balkan states against the Montenegro and as a result has postponed indefinitely the American tour he had planned.

25 TROTTERS GO
INTO 2:10 CLASS
IN TURF WORLD

NEW YORK, Nov. 11.—Up to the present time fifty-five trotters have entered new 2:10 class of races. The largest crop of fast performers to come since the close of the season. The racing season of 1912-13 was the best year in the past, when a total of 100 horses were entered in the 2:10 class. The racing season of 1912-13 was the best year in the past, when a total of 100 horses were entered in the 2:10 class.

COACH YOST PICKS
STAR ELEVEN OF
MICHIGAN MEN

ANN ARBOR, Mich., Nov. 11.—In the course of much activity in football practice, Coach Yost picked for his team a selection of all time all Michigan football team. It is as follows: Bodden, left end; Curtis, left tackle; McQuinn, left guard; Schultz, center; Snelson, right guard; Mankoff, right tackle; Brown, right end; Quisenberry, left half; Hanson, right half; Heston, right halfback.

Will Be Fought to Finish.

The Green team from the Granite State are tackling a tough proposition, but they have confidence, and there will be no let-down and die spirit. Although the Harvard men are working hard this week for the Dartmouth game, the Green players who are known, on difference cannot be so great but that the upstate team will give a stiff run to the larger eleven. This will be the hardest game since Princeton, and the best before this season.

M'DEVITT COMPARES TEAMS
EXPERT SAYS THAT HARVARD HAS POWERFUL MACHINE

NEW HAVEN, Ct., Nov. 11.—Saturday's games brought forth some very interesting results. Yale, Harvard, Princeton and Dartmouth won, as expected, and the Cornell Indians sprung a surprise in the defeat of the Navy. It was left for the Michigan-Pennsylvania, however, to furnish the real spectacular exhibition. Pennsylvania's comeback in the second half after Michigan trounced her by 21-0 in the first half was nothing short of remarkable.

Wells Picked to Win
Over Welsh Tonight

LONDON, Nov. 11.—Unusual interest was manifested today in the fight scheduled to take place tonight between Freddy Welsh and Matt Wells at the National Sporting Club here. The local favorite, Welsh, was expected to win, but the odds were slightly in his favor.

Bowling Chatter

The contest for the City League championship, which is given each year to the man having the highest individual average, is developing into an interesting affair this season. The addition of several new men such as Paul Peterson, Harry Brown, and John Smith, has made the contest more interesting.

DAHLEN TO LEAD BROOKLYN
IN THE 1913 PENNANT RACE

BROOKLYN, Nov. 11.—William F. Dahlen has been re-elected to manage the Brooklyn Club for 1913. This was the unanimous decision of the club. Dahlen is a better manager than Roger Bresnahan, and is as good a leader as Frank Chance, under existing conditions. Dahlen made the New York team for 1912, and has a thorough knowledge of the game and is honest and conscientious.

Hard Work Planned
for Tiger Players

PRINCETON, N. J., Nov. 11.—Head Coach Cunningham said here that the Princeton football team will go through a stiff week of work in order to get on final touches for the game with Yale on Saturday. Rehearsals will be held on Monday, Tuesday and Wednesday.

Ford
THE UNIVERSAL CAR

Anyone who has friends has a friend who has a Ford. There are now more than a hundred and sixty thousand Fords in service—and thousands more in transit. Its friends have created for it the unprecedented Ford demand.

Every third car a Ford—and every Ford user a Ford "booster". New Fords—run about \$525—touring car \$600—delivery car \$625—tour car \$800—with all equipment, f.o.b. Detroit. Get particulars from Ford Motor Company, 650 Beacon Street, Easton—or direct from Detroit factory.

**Nature's Own
Wrapper Keeps
Tobacco Best**

The Natural Leaf Wrapper is valued highly because it enables the manufacturer to give you the freshest—sweetest—coolest tobacco for your pipe.

In Master Workman Tobacco all the natural moisture, on which the natural flavor of the leaf depends, is retained, because all the moisture and sweetness of the leaf is pressed into the plug and kept there by Nature's own package—the natural leaf wrapper.

Sliced or granulated tobacco must be inferior to Master Workman Plug, because any chopped-up tobacco must lose its moisture and flavor—become dry—burn fast and smoke hot. That's why all such chopped up tobaccos bite your tongue.

If you want a slow-burning—cool—sweet smoke, get a plug of Master Workman today and whittle off a fresh pipeful. That first smoke will show you.

The Turks Have Humiliated Women—for That Reason THEY ARE HUMILIATED AND BEATEN

A Mother Can Give to Her Sons Only the Qualities That SHE POSSESSES. And a Degraded Motherhood Like That of Turkey Means a Degraded, Miserable and Beaten Nation.

Copyright, 1912, by American-Journal Syndicate

On Saturday night there was a great torchlight procession in New York of those favor woman suffrage.

Just at this time the advocates of votes for women will find their best argument and strongest sermon in the defeat of the Turks, the disgraceful flight of the Sultan's army, driven like leaves before the wind by the hardy fighters of the Balkans.

The Turks are a failure as a nation, they fail as fighters, they are degraded and down BECAUSE THEY HAVE DEGRADED THEIR WOMEN AND PULLED THEM DOWN.

It was not so in the days of Mohammed, whose religious empire once extended so far and threatened to conquer all Europe.

Thirteen hundred years ago, when Mohammed fled from Mecca and changed from a religious dreamer to a savage fighter, he was guided, advised and to a great extent bossed by a WOMAN. He changed his doctrines for that woman's special benefit. He realized the power, the intelligence, THE EQUALITY of one woman, at least, and he lived and died a great and successful man.

In ten years from the date of his "hijrah" he conquered Mecca. And when he died, in 632, he had started his fanatical cohorts, including the highly intelligent Arabian tribes, on a career of conquest as marvellous as any in history.

Persia, Syria, Egypt, North Africa, Spain and for a while the plains of Gaul north of the Pyrenees were in the hands of the Mohammedans, and all Europe was in danger. As Draper puts it, "The Crescent, lying in a vast semicircle upon the northern shore of Africa and the curving coast of Asia, with one horn touching the Bosphorus and the other the straits of Gibraltar, seemed about to round to the full and overpread all Europe."

Great was the power of those savage Mohammedans, driven with all the force of fanaticism AND BORN OF WOMEN THAT THOUGHT AND LIVED WITH THEIR HUSBANDS AS EQUALS—equals in the realities of life then, although not in the teachings of a preposterous religion.

One hundred years after Mohammed left Mecca to fight against his own tribe, the caliphs, Gibbon tells us, "were the most potent and absolute monarchs of the globe."

Little by little all this power and glory vanished. The wonderful science, the extraordinary contributions to knowledge of the Arabs ceased and died away under the desecrating influence of Mohammedanism.

Why did the power of the caliphs melt? Why are the armies of the great Ottoman Empire flying like murderous cowards before a handful of poor, disorganized mountaineers? Why is Turkey about to be driven from Europe?

Because the religion and the government of the Turks taught as part of religion and part of government the inferiority of women, the slavery of women, the degradation of the mother.

Four rules the Koran gives for those that desire possession of the four "cardinal virtues," or duties. One of them, which requires almsgiving, is well-meaning, but without effect. The other three are foolish.

Five times every day the believer must pray with his face toward Mecca.

Each year he must keep the feast of Ramadan, which lasts a whole month.

And before he dies he must make a pilgrimage to Mecca. These foolish "virtues," one of which resulted in making Mecca a centre for the distribution of Oriental disease, might have been survived by the Mohammedans.

But, unfortunately for them, more and more they made of the degradation and enslavement of women a fifth "cardinal virtue."

The Mohammedan who could keep the greatest number of women in slavery in his harem was the big man.

And what is the result?

Those that should be leaders among the Turks are THE SONS OF SLAVE WOMEN.

The wretched, deposed Sultan, who moves about dragging his miserable harem with him, is the son of a slave.

And the doddering half-idiot that succeeds him on the throne of Turkey is another son of a slave.

And the leaders of thought in Turkey—those that hold power—are also sons of slaves, born of women that live locked up like prisoners, with brain and body both living in slavery and darkness.

A man gets his qualities FROM HIS MOTHER, and he can get from her only the qualities that she possesses.

Turkey is humiliated, degraded, lowest of all the nations in Europe because in Turkey women is humiliated, degraded, lowest of all the women in Europe.

In the Balkans the mountaineers live in the open air, with their wives beside them. The mothers go to and fro free and share in their husbands' councils. There is one wife to each house, and the children of that wife inherit the freedom of thought and the lofty patriotism of the Balkan mother.

The Turk is born of a poor creature bought and sold, brought from Cashmere or some other market of women—bought like a dog or a horse.

Little wonder that the sons of women thus degraded and oppressed are like frightened dogs before the sons of the free women of the

Balkans, the Bulgarians, Serbians and the others that so long in that dreary region have held back the Turks and their brutality and protected the civilization of Western Europe.

The best lesson for those that oppose woman suffrage, that prate about the home as woman's only sphere, is the lesson that the free-born men of the Balkans are giving to the slave-born men of the Turkish Empire.

It is in this country in Europe that puts WOMEN lowest in all Europe, most degraded and in

And the nation that in the future shall place women highest will itself be highest, most worthy and most able.

For the man gets his qualities from the mother, and the mother can give only that which she has.

The above editorial is written at the request of our great and good friend, Mrs. Oliver Belmont. Mrs. Belmont proves by her happiness in her work that what many of our prosperous women need is SOMETHING TO DO.

Congressman Augustus P. Gardner of Essex Has Shown That He Has Some Vision, Some Appreciation of What the Future Has in Store.

Congressman Augustus P. Gardner is right when he says that it would be unwise and suicidal for the Republican party of Massachusetts to attempt the election of any of the men who are now candidates for the Senate.

By this statement Mr. Gardner has shown that he possesses some vision, some appreciation of what the future has in store for the unrepented sins of the Republican party.

The candidacy for the United States Senate of men like Weeks, Draper and McCall is proof of the indifference of these men to the interests of their party. If their candidacy is taken seriously, it will be proof that the Republican party has been given over by the gods to destruction, for it is said that those whom the gods would destroy they first make mad.

Weeks, McCall and Draper have for years been the perfect servants of special privilege. They have been the janissaries of high finance. They are Hessians who have fought for every other cause than the cause of their country. If they persist in prosecuting their candidacies, the AMERICAN will present to the people of Massachusetts the character of their public records in order that the legislators who vote for them may be held responsible by their constituents.

If there is one pillar left standing in the once great structure of the Republican party, the election to the United States Senate of a man like Weeks, McCall or Draper would topple over that last evidence of existence.

Congressman Gardner has sounded a note of warning to the members of the incoming Legislature. There is scarcely a man of them who does not know that he is right and who will not reject the candidacies of those arch reactionaries if he is let alone and is allowed to exercise his own judgment.

Ways You Have Made Your Work Pay Will Be of Help to Others

One Hundred Ways to Earn Money at Home

A Fifty-Page Booklet by
Mabel Barclay Ury

Will be sent postpaid to any address upon receipt of ten cents in stamps to cover cost of mailing and handling. Address BOSTON AMERICAN PROMOTION DEPARTMENT, No. 5 Winthrop square, Boston.

By MABEL BARCLAY URY

IT IS not an easy way of helping out to get some extra money. MRS. J. N. ESTER, Hopkinton, Mass.

Make Chain Purse. In the city of Woonsocket, like many other places, no doubt, there is a great demand for chain purses. These purses consist of small rings, which must be joined together with the aid of a pair of small pliers. According to the plan, one is paid from 35 cents to \$1.50 a purse. This is returned to the agent of the same in its rough state. I can make as much as \$5 a week making these bags. MRS. CLARA HUBLEY, No. 732 Social Street, Woonsocket, R. I.

Embroidered Initials. Embroidered initial and monogram work has become very popular, and anyone who is apt at this work can easily be kept busy, and be well paid for their time. If they apply at the linen counter of the store. I hope this may prove a valuable suggestion to those who only think of this kind of work. MRS. T. ROWE, No. 10 Summer St., Springfield, Mass.

Embroidery Work. A woman who lived in an isolated region may miles from a railroad found herself in need of clothing for herself and children. She could not exult in embroidery, but there was no market for anything in her neighborhood. She inserted an advertisement in a paper in the nearest city saying that she would do embroidery on materials furnished her in exchange for clothing in good condition. As a result she has garments of excellent quality. She sold many of these garments to neighbors, so besides plenty of clothing she has added a small amount of money to her formerly empty purse. E. C. Venable, Mass.

Raises Chickens. I start in Spring and set some hens in March and raise early chickens. They begin to lay eggs when the eggs are 40 or 50 cents per dozen, and I get now 80 cents per dozen. It does not cost much money to start and the waste from your table will very near keep a flock of 25 or 30 hens. When your chickens are large enough you can sell the roosters off for broilers. The children love to throw waste to the chickens. My hens, who lay only three years old, will even throw their waste apart to turn and takes interest in them.

Let some one try my way, and see how it will help them. One dollar will be paid for every letter contributed by you to the AMERICAN, containing ideas helpful to these WOMEN WHO WISH TO EARN MONEY AT HOME. This department is organized to help women help themselves. Please write on one side of the paper only and address MABEL BARCLAY URY, Boston AMERICAN.
